Summary

I am a junior software developer, web developer, and fresh graduate from Asia Pacific University (APU) with Bachelor's Degree in Information Technology with a specialism in Information System Security. I have passion in coding and highly interest in web developing. My field of study is relating to security, through combining my specialty and passion, I am able to work in an efficient way. I am always eager to learn and improve. I take self-improvement and responsibility seriously and exciting whenever I get a chance to gain new knowledge. I experienced in ASP.NET, PHP, C#, JavaScript (MERN). Feel free to check out my GitHub link.
